Dear Hiring Manager,

I am submitting this letter to you as my recommendation for Robert Scarcella Jr. to be your next Informational technology support representative. My company would regularly contact Rob for the two years to help with computer, camera, and software help. Rob is always professional and works hard to have an answer for every person who turns to him for help. He would also be willing to put in long hours to make sure that all of our projects were completed properly and that we got the results we were looking for. His dedication to quality is hard to find in the informational technology support field and we always valued Rob for the job he did. Please feel free to contact me if you have any questions or need any further information.

Regards,

Aleshia Rau
