

April, 14th 2023

This letter is in recommendation of Robert Scarcella. I've worked with Robert for the past three years on our company's IT needs.

Robert has ensured our systems ability to meet our needs, making us more efficient and systems more reliable. I've experienced Robert's advanced skills to problem solve and navigate a multitude of programs to interact with each other, where others in his profession struggled doing so. I feel Robert truly looks after what's best for our needs and is always willing to listen. To add to Roberts skills, his professionalism is top notch, staying in contact and prioritizing emergency situations to the best of his ability.

I would highly recommend Robert for any IT needs in any environment. Any questions regarding my experience, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Devin Adema". The signature is fluid and cursive, with the first letter of each word being capitalized and prominent.
